MEANS MUCH TO ABBEVILLE. A petition has been sent to the Southern Railway officials, signed by our most prom-inent and influential business men, asking that the night train between Abbeville and Hodges be put back on. The Southern is always ready and willing to accommodate the always ready and wining to accommodate the public and as this means so much to Abbeville from every standpoint, it is to be hoped the petition will be granted.

Abbeville is growing and the business done here warrants such a move. Let us have the night train by all means.

A New Line of the Best Perfumeries, Dr. C. A. Milford, the up to date and progressive druggist, is always alive to the interest of his customers. He has just received a large supply of Ricksecker's Perfumeries, which he is selling at remarkably low prices. They not only compare favorably with other goods of this kind on the market, but surpass many. Call at his place of business and see for yourself. He has also received a large supply of school books, tablets, slates, penclis and everything that is necessary to equip one for school. Give him a call before buying.

A Coming Event.

On next Tuesday night, Sept. 15, at 8:30 o'clock, there will be an entertainment at the Methodist parsonage, under the auspices of the Charch Improvement Society. An inter-esting program has been prepared for this occasion. Refreshments free of charge. Ad-mission ten cents. The public is cordially in-

Fine Plantation for Sale.

If you want to buy one of the best plantations in Abbeville County, read the advertisement of the J. E. G. Bell land, and then all on Capi John G. Edwards for particulars. He will sell at private sale, but if the land is not sold before Sale Day it will be offered to the highest bidder at public outcry. This is really a good place of about six hundred acres, and deserves consideration from prospective buyers. The location is desirable.

Tax Sales.

Sheriff Lyon had advertised thirteen tax sales for last Monday, but only one tract was sold. The land, 123 acres, was sold as the property of Thomas E. Smith, senior. W. P. Greene, Esq., bid it in, it is supposed for a client, at \$23.

Baptist Church.

The subject for the morning services at the Baptist Church will be, "Do we need anyone besides Christ to intercede for us?" Night subject, "Sinning against the Holy Spirit." The night service will be of a revival character. The ordinance of baptism will be administered.

Abbeville will soon resume the even tenor of her way, as the Davidson and Clemson boys have gone, soon to be followed by the others.

A. R. P. Church.

No service in the A. R. P. Church on next Sabbath, as the pastor will be absent from the city. Service on 3rd Sabbath as usual.

Our Richest Estate.

It has been said that one's "health is his richest estate." If this be true of the individual, is it not true of the town or city? Abbeville's greatest blessing is the health fulness of her citizens. This town, as far as we know, is free from sickness that might be induced from local causes.

The city water is pure, the surface wells are good, and the sanitary condition of the city is such that we have literally no sickness. But we are on the eve of a crisis. Our sup ply of well water is limited, and the time will on come when more water will be needed. The question then will arise, how can the ad ditional water be had? If it be contended that shallow wells are cheap, it might be added that branch water is cheaper than well

The question should be, how to get the best and purest water.

If our 500-foot well was dug deeper-until it went through the rock-good water might be had. And good water is of the first importance. A few dollars in the city treasury is as trash when compared to the health of its citi-

As our people are contemplating the putting in of sewerage pipes, we ask attention to the following notice as it appears in the Greenwood News and Views:

Well water citizens are advised by the board of health to discontinue the use of water from wells where the distance from wells to sewer pipes is not greater than one hundred yards. R. B. Epting, M. D., Chairman. J. R. Leavell, Secretary.

The reader is as capable as we are to interpret the above. They can read between the lines as easily as we can; but the notice certainly has a signifigance. Let Abbeville take no risks on the parity of

The Get-Together Club.

We learn that some of our young men mean to take up the consideration of establishing new enterprises in Abbeville. If they will take the lead the old men will follow. Eiberton Star.

Eibert's first bale of cotton was sold on the public square Saturday, and the price received for the same was 16 cents a pound. The man who won the premium this year was Mr. J. B. Dixon, a young man who resides in Petersburg district. The bale weighed 525 pounds and netted him with the seed \$90.20. It was bought by Arnold & Co.

Of course, Mr. Dixon appreciated the fact that he was the first bale man, but he was not near as proud as his father, Mr. Andy Dixon, who is now seventy four years of age, and is as sprightly as a boy. Mr. Dixon, when he saw that his boy had an opportunity of placing the first bale of cotton on the market, donned his eack and gave the younger men a lively till in picking the fleecy staple. The bale was raised on the Caihoun estate, of which Mr. Granville Beal is manager—and by the way, this is one of the finest estates in this section of Georgia. Mr. Beal is also proud of, the fact that his tenant won the premium this year.

Mr. Dixon has a very fine crop, too, and will make something over twenty bales with two mules, and so far as buying corn another year, that is simply out of the question, if nothing happens to his crop. the Methodist church Sunday evening.

Miss Johnnie Sanders, a most charming and intellectual young lady, a missionary from China, lectured last Friday and Sunday evenings in the Methodist church to large congregations, whom she held spelibound by her highly entertaining descriptions of the manners and customs of the Chinese, and last but not least, the grand work of the missionaries in that field. Miss Sanders is most pleasing in her manner and address by which she at once wins the hearts of her hearers. It is whispered she is soon to have a co-laborer with her in the missionary work—then there will be "two hearts" beating in unison, instood of "one all alone."

WHO STOLE THAT MULE AND BUGGY? WHO STOLE THAT MULE AND BUGGY?

Mr. Joe Mundy came in town last Friday in his buggy, driving one of his fine mules, bringing with him a "Georgia" negro whom he had in his employ for some time, but as his time was up he settled with him and let him go. When Mr. Mundy went for his mule and buggy in the afternoon to return home, both were gone. The only solution we can give of the affair is, that the negro "borrowed" the turnout to drive home, but forget to ask the loan of it until he got out of the city, and being of a superstitious nature he feared if he "turned back" he would have bad luck, so he just continued his drive, meaning, of course, no harm. We havn't heard whether our sequel is true or not. It is at least not without some foundation.

TALKS WITH THE FARMERS.

They are all cheerful and in good spirits notwithstanding the protracted drought. They say what the crops lack in pounds will, they hope, be made up in dollars and cents. Cotton is not lost by any means, good rains will yet do the old cotton much good and will be the making of the late planting, besides making the late corn and potato crops, as well as largely increasing the yield of hay.

The season has been fine for saving fodder which has nearly all been housed without a drop of rain on it. The corn crop is very good and is nearly all safe now, with the exception of some very late planting which looks well and with one or more rains will make a fine crop.
